

L3: DAVID Cluster including *glycosyltransferase*

 corresponding gene-term association not reported yet

 corresponding gene-term association positively reported

Annotation term

GO:0016757--transferase activity, transferring glycosyl groups																			
Glycosyltransferase																			
GO:0006486--protein glycosylation																			
hypothetical protein Y47D3A.1																			
hypothetical protein F59F4.2																			
Flucosyl transferase [ut-2]																			
Glycogenin-1 [gly-1]																			
hypothetical protein F13C3.6																			
UDP-Glucose Glycoprotein Glucosyltransferase [ugt-1]																			
Hypoxanthine Phosphoribosyltransferase [hprt-1]																			
UDP-Glucuronosyltransferase [ugt-17]																			
Purine nucleoside phosphorylase [np-1]																			
Alpha-1,4-glucan phosphorylase [tp-1]																			
UDP-glucuronosyltransferase [ugt-3]																			
Putative UDP-glucuronosyltransferase [ugt-62]																			
Putative UDP-glucuronosyltransferase [ugt-50]																			
Putative UDP-glucuronosyltransferase [ugt-58]																			
UDP-glucuronosyltransferase [ugt-6]																			
UDP-glucuronosyltransferase [ugt-5]																			
Beta-1,4-mannosyltransferase [ugt-46]																			
Tankyrase-like protein [tank-1]
